

# Noah Pickle

## SOFTWARE ENGINEER

---

### ABOUT ME

Detail-oriented IT professional with excellent communication and interpersonal skills. Self-motivated with experience in software development and quality assurance testing. Creative problem solver focused on quality and timely delivery. Reliable asset for achieving company goals.

### EXPERIENCE

#### IT MANAGER @ TITAN LOGISTICS

Sep 2020 – Current

- Directed IT Infrastructure for a military contractor that sells and ships car parts to overseas US military bases.
- Designed and maintained Quoting Software with Warehouse Receiving, Packing, and Tracking features for both employees and customers.
- Evaluated organization's technology use and needs and recommended improvements to hardware and software.
- Participated in ongoing self-training to enhance job skills and knowledge.
- Managed Employee's and Customer's logins to a personalized dashboard for searching, retrieving or uploading information.
- Handled IT support requests with employees and customers through in-person, emails, and over the phone.

#### WEB DEVELOPER @ APPACHIAN DIGITAL

Aug 2019 – Jul 2021

- Developed custom websites to meet individual clients' needs using WordPress.
- Optimized website exposure by analyzing search engine patterns for SEO.
- Performed and directed website updates using WordPress development tools such as Beaver Builder, Divi, and Bee Theme
- Wrote content for client's company blogs and Appalachian Digital's company blogs.
